The following sessions can be carried out in your workplace at a time which suits you. They can be tailored to your needs in terms of length and content:

**Getting the most out of your NHS Athens Accounts**
This session will help you fully exploit your Athens account. Includes online registration, and an overview of online NHS resources.

**Introduction to literature searching using Search 2.0**
Find out how to search for the latest research and access full text articles via Search 2.0, the clinical database search facility of the National Library for Health.

**Patient information and you**
This session will outline a number of patient information sources and demonstrate how to access them.

The service also offers……

An enquiry and literature search service
Access to books and articles
A clinical support librarian based at Andover War Memorial Hospital every Monday (located next to Minor Injuries)

….and much more.

Contact a clinical support librarian for more information:

**Healthcare Library**
