This course is mandatory for new VT Trainers and Therapist VT Trainers. It would be very suitable for GDPs and Dental Nurses interested in training at a future time and Educational Supervisors.

This four day course will be an opportunity for new and experienced trainers in dental education to explore:
- the theory of adult learning and its application to dental education
- creative approaches to one-to-one teaching
- practical and effective tools for assessing learning
- tips for successful tutorials

The sessions will be lively and interactive, using case studies and examples from participants’ own practice as dentists and dental educators.

The course will be based on the draft Guidelines for Dental Educators (COPDEND May 2008) and will prepare participants for possible entry to the Oxford Deanery New Trainers Course which leads to the Postgraduate Diploma in Medical Education.
