Synthes “Innovations in the Management of Periprosthetic Fractures” Symposium

19 May 2010

The British Trauma Society Instructional Course

Radisson Edwardian Manchester
Free Trade Hall
Peter Street
Manchester
M2 5GP
Course Objectives

This 3 hour evening instructional course is aimed at senior orthopaedic trainees and Consultants who wish to gain a sound understanding of the increasing epidemic of peri-prosthetic fractures around the hip and knee. The symposium will include the epidemiology of these injuries, classification, fixation options with respect to fractures around a hip replacement or knee replacement, case discussions, and a hands-on workshop highlighting innovations and new techniques including the Cable System and Locking Attachment Plate. The course will be ran by experts in this field and include an evening buffet following the educational event.
