We are looking for people in Wessex who:

• Are helping to drive innovation, improvement and patient safety activities in health and care. This could be within a department, along a patient pathway, as part of a clinical network, or across an organisation(s).

• Have a desire to share knowledge, successes and experience to support improvement for patients.

If that’s YOU we would like to invite you to join the new Wessex Community of Safety and Improvement Practice (CSIP).

What are the benefits of joining the Wessex Community of Safety and Improvement Practice?

Wessex Academic Health Science Network (AHSN) with regional partners has launched the community which will support existing efforts to:

• Connect individuals and projects

• Create greater alignment in the work of projects, groups and organisations

• Encourage and facilitate sharing, learning and collaboration

This will be achieved through:

• Networking members using “LIFE” the online Community platform

• Invitation to regional events

• An annual conference to showcase excellence in improvement and patient safety activity and impact across Wessex. The inaugural conference is scheduled for 15 June 2016

How do I sign up?

Register at https:// surveymonkey.co.uk/r/WessexCSIP or if you have any questions please email the CSIP Project Managers directly.

CSIP also links with the Health Foundation Q Initiative. The information you provide will be shared (with your full consent) with the Health Foundation to inform recruitment to their national Q initiative. Q is an initiative led by the Health Foundation and supported and co-funded by NHS England, connecting people skilled in improvement across the UK. Q will make it easier for people from all parts of the health care system with expertise in improvement to share ideas, enhance their skills and make changes that benefit patients.
