Critical Incident Management for the Anaesthetist

This course has been run for the past 15 years in Wessex. Historically it has been aimed at CT1 anaesthetists at 3 months just before they go on call in order to expose them to anaesthetic emergencies in the safe environment of the Sim-Lab. The day will be modified to fit the needs of Return to Training Anaesthetists.

The format is as follows:

- Generic aspects of critical incident management
- SimMan3G orientation
- Machine check
- 5 Scenarios
- Airway skill stations including Front OF Neck Access (FONA)
- 5 Further scenarios

Some examples of scenarios you may be exposed to are difficult airway scenarios, malignant hyperthermia, anaphylaxis etc...

Date: 14th May 2019
Time: 09.00 – 16.30
Venue: Simulation Lab, Education Centre, Dorchester County Hospital
