Delegate workshop allocation can be found on your conference name badge. Each workshop will give the opportunity for four speakers to share their work for 15 minutes each, with the remainder of the session for questions and discussion.

**Workshop 1: HEE Wessex QI Fellowships; their work and impact**

**Chair:** Dr Fleur Kitsell – Associate Director for Workforce Transformation, HEE Wessex

**Dr Sebastian Gray, Consultant Paediatrician, Salisbury NHS FT**
  
  Seb Gray was a HEE Wessex Paediatrics trainee from 2009. From 2016 to 2017, he combined a HEE Wessex QI Fellowship with his final year MSc dissertation at Imperial College where he was awarded the Dean’s prize.

Starting as a Paediatric Consultant in Salisbury in December 2017, he is now also the paediatric QI lead. Seb was successful in applying to the 2018/19 HEE Wessex QI Support Fund to deliver Team EQUIP (Education in Quality Improvement Projects). This multi-disciplinary team-based QI training will involve projects across child health in Salisbury spanning primary and secondary care commencing in September 2018.

**Yvonne McWean, Associate Director Quality Improvement, Hampshire Hospitals NHS FT**

Yvonne qualified as a Chartered Physiotherapist in 1997. She joined Basingstoke and North Hampshire NHS Foundation Trust in 2009 as Head of Therapy Services and has since held several operational management posts.

In her current role, she is leading the strategic development of a QI programme across the Trust, promoting, educating and supporting the use of robust improvement science to enable staff to successfully deliver improvements to the quality of care for their patients. Yvonne also completed a HEE Wessex QI Fellowship in 2016/17.

**Aileen Murray-Gane RMN, BSc, MSc, Consultant Nurse for Older Persons Mental Health, Southern Health NHS Foundation Trust**

Aileen’s Professional Doctorate in Nursing focussed on the self-identity of those living with dementia.

Her professional interests include the implementation of enriched model of dementia care, living well with dementia and an inclusive participatory approach to working with older adults.

**Lisa Smith, Consultant Midwife, University Hospital Southampton NHS Foundation Trust**

Lisa’s current role has a focus on improving intrapartum care in both obstetric and midwife-led areas. This also involves supporting women and midwives with complex birth planning.

She is a member of the British Intrapartum Care Society and Wessex Intrapartum Care Network and has participated NICE guideline development, been a peer reviewer and ESMiE panel member (Enhancing the Safety of Midwifery-Led Births). Previously Lisa worked as a caseloading midwife providing continuity of care to women in the antenatal, intrapartum and postnatal periods.

Lisa is currently undertaking doctoral research on induction of labour at the University of Southampton.

Delegate workshop allocation can be found on your conference name badge. Each workshop will give the opportunity for four speakers to share their work for 15 minutes each, with the remainder of the session for questions and discussion.

**Workshop 2: Wessex Q’s; Sharing projects and learning**

**Chair: Tracy Broom - Associate Director, Wessex Patient Safety Collaborative**

**Geraldine Sweeney, Improvement Manager, Royal Bournemouth & Christchurch Hospitals NHS FT**

Geraldine is a QI practitioner and trainer and has worked at The Royal Bournemouth & Christchurch Hospitals NHS FT for the past 14 years. Prior to that she spent 30 years working in the manufacturing and service sector working on process re-engineering projects in Europe and The Americas.

Geraldine is also a qualified coach.

**Usha Couderc, Clinical Lead for Primary Care, Wessex Patient Safety Collaborative & Q**

Usha has been working as a GP for 16 years and in addition to her work with Wessex PSC, she also works for North East Hampshire & Farnham CCG as a clinical lead for Primary Care. She is also a special clinical interest ambassador for Clinician Human Factors Group.

Her interests are to increasing awareness of Patient Safety in Primary Care through Quality Improvement and better understanding of Human Factors and Ergonomics and in Sepsis and Deterioration.

**Corrina Davies, Directorate Manager, The Royal Bournemouth and Christchurch Hospitals NHS Foundation Trust**

Corrina is Directorate Manager at Bournemouth Hospital for Anaesthetics, Theatres, and Critical Care. She has a management background in the NHS as an operational manager within secondary care and has contracted and commissioned services in primary and secondary care along with voluntary organisations and private providers.

She has special interests in joined up systems thinking through communication, compassionate care for the workforce through leadership development, and simulation training in the theatre environment with an appreciation of human factors in complex organisations. Corrina is currently studying towards a Masters degree in Patient Safety at Imperial College London.

**Carl Adams, Engagement Lead, Academy of Research and Improvement at Solent NHS Trust @cjadams80**

Carl supports and prompts the involvement of patients and communities working side by side with services to improve patient care. Having a passion for quality improvement, Carl has led award winning projects on improving positioning of the stroke arm; specialist Parkinson nurse demand and capacity and understanding the benefit of vocational rehabilitation through co-production.

A qualified physiotherapist, Carl also successfully completed the HEE Wessex Neurological Rehabilitation Trainee Consultant Practitioner programme in 2018. His clinical special interest is in self-management and patient activation and how services support people to achieve this.

He is currently undertaking an MSc and is regional chair for Wessex ACPIN (www.acpin.net)
