A **fully funded**, accredited six day programme for supporting those living with long-term conditions. This course aims to develop the skills for Practice Nurses, Nurse Practitioners and Allied Health Professionals working in Primary Care.

This introductory course will focus on the skills and insights needed to provide effective patient centred, evidence based care across a range of long-term conditions in the GP surgery setting.

**Taught by practitioners, the course will include:**

- Impact of long-term conditions
- Using motivational interviewing
- An in-depth exploration of:
  - Diabetes
  - Asthma / COPD
  - Cardiovascular disease and hypertension
  - Managing long-term conditions in the General Practice setting e.g. Qof, the
