Course Information

Course Objectives
This cadaver based course is designed for ST3-ST6+ trainees who have some trauma surgery experience but wish to extend their knowledge of the practical approaches to the wrist joint region for trauma and gain exposure of the latest osteosynthesis systems.

The aims of the course are to allow, under supervision, the trainee to perform the routine surgical approaches to the wrist region that they are likely to be required to be familiar with to perform everyday trauma surgery. The participant will leave with an overview of the indications for operation and the options for the surgical approach; they will have a direct exposure to the anatomy and the implants in common usage. They will see the surgical pitfalls associated with the surgical approaches and be aware of their own limitations and needs for further learning in this field.

Practicals will consist of fixations of the Distal Radius both Dorsal and Volar as well as fixation of the Scaphoid utilising VA-LCP Two-Column Distal Radius Plate 2.4, LCP 2.4 Distal Radius Dorsal Plates and Headless Compression Screw 3.0.

Chairman
Mr. J Williams  Newcastle Upon Tyne Hospitals NHS Trust

Invited Faculty
Mr. J Candal-Couto  Northumbria Healthcare NHS Foundation Trust
Mr. C Gibbons  Northumbria Healthcare NHS Foundation Trust
Miss. L Touret  City Hospitals Sunderland NHS Foundation Trust
Mr. A Stirrat  City Hospitals Sunderland NHS Foundation Trust
Mr. M Srinivasan  East Lancashire Hospitals NHS Trust
Mr. R Farnell  Leeds Teaching Hospitals NHS Trust
Course Information

Venue
Newcastle Surgical Training Centre
Freeman Hospital
High Heaton
Newcastle upon Tyne
NE7 7DN

Course fee
£300.00
Course fee includes course materials and refreshments.

Accommodation
Accommodation is not included in the course fee. Accommodation details will be provided with registration confirmation.

Cancellation policy
After 15 April 2010, 25% of the course fee will be charged; after 15 May 2010, the full fee will be charged.

Course schedule
Registration will be at 08:30 on Tuesday 15 June and we will aim for a 17:00 finish.

Insurance
There is no insurance effected by the course organisers to cover participants against accidents. Personal belongings left in the course venue are the responsibility of the individual participant.

CPD
We have applied for CPD accreditation.
Registration Form
Innovations in Wrist Fracture Management

15 June 2010

Please complete this registration form and send together with course payment by mail to:
