Health Education England (Wessex) currently covers the health communities of South Wiltshire, Dorset, and Hampshire and the Isle of Wight incorporating acute, primary and mental health Trusts – approximately 16 Trusts. The purpose of HEE Wessex is to provide high quality clinical education and training for some 2,400 doctors and dentists in training to ensure that they are competent and fit to practise.

An exciting opportunity has arisen for a forward thinking and dynamic Lead Medical Education Fellow.

This is a challenging role and requires the ability to demonstrate leadership and negotiating with key stakeholders and ensuring high standards all the way.

The successful post holder will be expected to work the equivalent of 2 sessions per month; this will be remunerated by a honorarium of £2500 per annum, funded by HEE Wessex but paid by the current employer.

For the past two years this role has been shared by two postholders who have each received half the honorarium. This arrangement has worked well and could continue, depending on the preference of the new postholder. HEE Wessex will support your personal and educational development.

If you are interested in the role, please send your application (see attached) to Mrs Julie Worthington, PA for Educational Development, Health Education England (Wessex), Southern House, Otterbourne, Winchester SO21 2RU or email to julie.worthington@wessex.hee.nhs.uk. The closing date is 30 09 16 and any subsequent interview will be held on Monday 10 10 16 (TBC).

For an informal discussion about any aspect of this role, please contact Dr Rosie Lusznat, Associate Dean for Professional Support, HEE Wessex (rosie.lusznat@wessex.hee.nhs.uk)
