Vascular Ultrasound Course

TIMETABLE:

Day 1

(09.00 Registration)

Introduction: Professor Nigel Standfield

Morning session

Physics of Ultrasound and Duplex scanner technology

Peripheral Arterial Occlusive Disease.
Practical Station 1: Peripheral Arterial Occlusive Disease.

Afternoon Session

Cerebrovascular disease
Practical Station 2: Cerebrovascular disease

Abdominal Aortic Aneurysm
Practical Station 3: Abdominal Aortic Aneurysm (AAA)

Day 2

(Course commences 09.00)

Morning session

Peripheral fistulae for vascular access
Practical Station 4: Peripheral fistulae for vascular access

Peripheral bypass graft surveillance.
Practical Station 5: Peripheral bypass graft surveillance.

Afternoon Session

Deep Vein Thrombosis
Practical Station 6: Deep Vein Thrombosis (DVT)

Chronic Lower Limb Venous Insufficiency
Practical Station 7: Chronic Lower Limb Venous Insufficiency (CVI)
