SPECIALTY TRAINING PROGRAMME IN OCCUPATIONAL MEDICINE
PROGRAMME IN WESSEX DEANERY

This is a 4 year training programme in Occupational Medicine at StR level aimed at doctors who can demonstrate the essential competences to enter this level of training. The programme is designed to support training for a CCT in Occupational Medicine. Details of essential competences and qualifications are detailed in the MMC person specification for Occupational Medicine at St 3 level which is available from www.mmc.nhs.uk and at www.fom.ac.uk/education/speciality-training

The programme is based in Southampton General Hospital in the Wessex Deanery. Health Education Wessex is responsible for the planning, development, education and training of the healthcare and public health workforce across Hampshire, Dorset, Isle of Wight and Salisbury. We also provide medical training for the States of Jersey and GP appraisal services for Jersey and Guernsey. We believe that the key to improving the health and healthcare of the 2.8 million people living in Wessex is investment in the skills and values of the 52,000 people working in the NHS and in primary care.

Within the field of postgraduate medical education and training, we manage across primary and secondary care for these health communities – totalling around 2,400 doctors in training at any one time across 12 Trusts and 160 GP practices. In addition, we support the workforce development for GP Practice Nurses and Public Health practitioners as well managing a bespoke GP appraisal service for established GP Practitioners to meet the requirements for revalidation in accordance with the statutory requirements set by the General Medical Council.

We manage training programmes for postgraduate medical training according to the statutory standards set by the General Medical Council (GMC) and have responsibility for establishing and maintaining quality management systems for all posts and programmes as required by the GMC.

Rotation Information

This post is based at Southampton General Hospital with a once weekly placement undertaken during the second year of the programme at Health Management Limited, Ringmer, East Sussex. Clinics may also be carried out at University of Southampton.
Study and Training

The primary aim of all posts is the training programme developed and there is a region wide syllabus and minimum standards of education agreed by all Trusts within the rotation.

The Deanery is committed to developing postgraduate training programmes as laid down by GMC, Colleges and Faculties and by COPMED - the Postgraduate Deans Network. At local level college/specialty tutors work with the Programme Director and Directors of Medical Education in supervising these programmes. Trainees will be expected to take part in these programmes (including audit) and to attend meetings with their nominated educational supervisor.

All posts within the training programme are recognised for postgraduate training by the General Medical Council (GMC) in accordance with their standards for training.

Study leave is granted in accordance with Deanery/Trust policy and are subject to the maintenance of the service.

All posts have a service element and the following covers the majority of duties. There will be minor variations in different hospitals but the list is aimed at covering the majority of duties:

1. Liaise between nurses, patients, relatives and senior medical staff.
2. Undertake clinics and workplace visits.
3. Take part in emergency work.
4. Dictate clinic letters.
5. Study for higher examination and maintain continued professional development.
6. Attend weekly educational and multidisciplinary sessions.
7. Undertake audit at various times throughout the rotations.
8. Teach medical students as directed.
9. Co-operate with members of the HR department when monitoring hours of work and other HR issues.
10. Attend induction in each hospital or new department.
11. Comply with all local policies including dress code, annual and study leave.
Trust Generic/Specialty Information – Occupational Medicine

University Hospitals Southampton NHS Foundation Trust is an acute tertiary referral centre and the Occupational Health department is located on the Southampton General Hospital site. The department includes a multi disciplinary team of Occupational Health Physicians, Occupational Health nursing and administrative staff and provides Occupational Health services to University Hospitals NHS Foundation Trust, Universities of Southampton and Bournemouth in addition to a number of external clients.

Curriculum and Teaching

The occupational medicine training programme at UHS is designed to deliver competencies set out in the Faculty of Occupational Medicine spiral curriculum. It is primarily NHS based with the opportunity for experience of occupational medicine in other sectors through the occupational health department’s external client base. External placements will also be arranged, including to another NHS Trust, to an external commercial OH provider and to the RAF.

The training programme will address the requirements of the Faculty of Occupational Medicine (FOM) specialist training syllabus through a combination of: academic teaching, including the Advanced Diploma in Occupational Medicine distance learning course provided by Manchester University; and practical clinical and occupational health experience gained in the department and through placements off site.

The trainee will have a learning portfolio which is designed to cover the key competencies to be achieved across the programme, which are taken directly from the FOM curriculum. Formal progress reviews will take place three-monthly to discuss progress against competencies and learning needs, and to update the portfolio to meet those needs.
Main Conditions of Service

The posts are whole-time and the appointments are subject to:

1. The Terms and Conditions of Service (TCS) for Hospital Medical and Dental Staff (England and Wales)
2. Satisfactory registration with the General Medical Council
3. Medical Fitness – You may be required to undergo a medical examination and chest x-ray.
