A two day course, focusing on osteotomies around the knee.

**Day 1**
To understand the history, indications, principles and biomechanics of knee osteotomies. Planning, surgical techniques, osteotomy options and outcomes will be covered.

**Day 2**
To understand the advanced options of osteotomies around the knee, with emphasis on femoral as well as tibial surgery. Rehabilitation, complications as well as workshops and complex case analysis will be covered.

For registration details please contact the Synthes Education Department, 01707 395212 or gower.kirsty@synthes.com
