Pre-Hospital Care - Sepsis

Mark Ainsworth-Smith
Consultant Pre-Hospital Care Practitioner, SCAS

Michelle Sullivan
Data Quality Analyst

15th June 2016
We have a dream.....

To have ONE sepsis recognition tool that can be used by:

- Primary Care
- Residential / Care Homes
- Ambulance services
The benefits of the NEWS scoring system.....

• Consistent language from call to hospital handover
• Allows us to match the most appropriate resource to the patient
• Allows us to achieve the most appropriate time-frame for the patient
• Allows us to recognise the deteriorating patient
• ePR demonstration
