The Care Pathway Programmes
Patient focused pathways
Making it happen

Suzanne Cunningham
Clinical Director
Maternity and Newborn
The Care Areas

- Maternity and Newborn
- Staying Healthy
- Children
- End of Life Care
- Acute Care
- Long Term Conditions
- Mental Health
- Planned Care

Shaping the Future
“Yeah I’ll Go”

www. PatientVoices.org.uk
Care Area Workforce Reports

- Care Area Workforce reports for each pathway programme
- An overview of the current workforce issues and workforce development priorities in each care area.
- Cover both the workforce changes needed to ensure successful delivery of the clinical improvement programmes, and also the wider workforce issues in that care area.
“Vicious Circles”

An opportunity for consultation

Delegates can select the pathways they would like to discuss in more detail from six of the pathways or the two additional workshops. The session will be repeated after coffee so you get the chance to visit two workshops.

1. Staying Healthy
2. Children and Young People
3. Mental Health
4. Long Term Conditions
5. End of Life Care
6. Maternity and Newborn
7. The Challenges of Medical Workforce Planning
8. Developing Associate/Assistant Practitioner Roles
9. PCT Commissioners (3.15pm only)
Questions you might want to consider (these will be tailored by the lead on each table):

1. Does the report resonate and align with plans and discussions that delegates are having in other forums?

2. What steps should we take to develop the current workforce to deliver this pathway programme?
3. What mandate do we want to give the SHA/NESC to commission education programmes to support the care pathway, particularly in developing Band 4 Assistant/Associate Practitioner roles?

4. What pledges are delegates able to make to support the delivery of the pathways?
Please move to your selected tables!

1. Staying Healthy
2. Children and Young People
3. Mental Health
4. Long Term Conditions
5. End of Life Care
6. Maternity and Newborn
7. The Challenges of Medical Workforce Planning
8. Developing Associate/Assistant Practitioner Roles
9. PCT Commissioners (3.15pm only)
Précis of questions

1. Is the content of the plan about right?
2. What can we do to develop the current workforce?
3. How do we measure improvement?
4. How can you make it happen?

NB: Different care pathways may ask these questions differently!
