Training to be a GP
Certification

- **RCGP**
  - Trainee registers as an Associate in Training (AiT) at start of training using Form R and again every year
  - RCGP set and approve the training programme (Curriculum) and Assessments

- **PMTB**
  - Approve the Training Programme and Providers and issues Certificates at end of training programme.
RCGP Assessments

- Applied Knowledge Test (AKT)
- Clinical Skills Assessment (CSA)
- Workplace Based Assessment (WPBA)
  - E-portfolio or log of learning.
  - Includes all assessments
WPBA is ....................... 

- Case-based Discussion (CbD)
- Consultation Observation Tool (COT) (in primary care only)
- Multi-Source Feedback (MSF)
- Patient Satisfaction Questionnaire (PSQ) (in primary care only)
- Direct Observation of Procedural Skills (DOPS)
- Clinical Evaluation Exercise (Mini-CEX) (in hospital posts)
- Clinical Supervisors Report (CSR) (in hospital posts)
The ARCP

- All GP Trainees will have their Training reviewed by a panel of senior Deanery Educationalists at least once every year and on occasion more frequently.
- This is the so called Annual Review of Competence Progression (ARCP) Panel and it literally reviews the progress of the Trainee in obtaining the skills required to become a fully competent independent General Practitioner.
- This is in addition to the six monthly Educational Reviews performed on the Trainee by their Educational Supervisor (ES).
Some interesting things you need to know
The GPStR Working Week

• The normal working week (excluding out-of-hours training) will comprise 10 sessions where the nominal length of a session is four hours and should be broken down as follows:

• Less Than Full time Training (Flexible Training) is pro-rata and can be anything from 50%-90%
The GPStR Working Week

- 7 clinical and in practice education
- 2 structured educational (including day release courses)
- 1 planned independent educational
- In-house teaching (tutorial) is nominally one session per week, and is to be included in the 7 Clinical sessions. There must be a scheduled minimum of two hours fully protected teaching (tutorial time) in addition to the remaining educational time of this session spread across the clinical week
- Out of Hours training is in addition to the above
- Each practice must clearly define the working week in the (BMA) contract as this may vary from practice to practice and will include some Extended Hours as part of the practices current working hours

### Notes:
- **AM**: Morning Clinical Sessions
- **PM**: Afternoon Clinical Sessions
- **Study Leave**: Study/Professional Development
- **For DRC**: For Delivery of Clinical Roles
- **Personal Education**: Personal Professional Development
- **Extended Hours**: Occasional Session
- **OOH**: Out of Hours
Out of Hours Training

• Out of Hours training should be incorporated into the GP / ST programme as determined by the learning plan agreed with the Educational Supervisor. This out of hours experience may occur in any primary care setting or as part of an additional identified learning need in a suitable hospital supervised setting.

• The trainer should facilitate the booking of out-of-hours sessions.
Out of Hours Training

• All GP/ST1 and 2 trainees are required to do one session per month and only in a supervised capacity in a six month period and these must be documented in the E-portfolio.

• Out of Hours training for the ST3/GPStR year remains 72 hours within the Wessex Deanery (please see separate out of hours’ guidance document).

• The out of hours experience undertaken during the ST1/ST2 GP slots will not count towards the (72) out of hours ST3/GPR training experience required by PMETB and the RCGP.

• All OOH sessions must be documented, logged and reflection on the learning from them recorded in the e-portfolio.
Educational Planning and Leave

• Induction and Educational Plan
• Hospital Induction for GPR/ST1&2 Slots
• Mandatory GPStR/ST3 Study Programme (30 days minimum).
• Structured Educational Sessions for GPStR/ST3 (Minimum of 5 further days)
• Professional Leave (maximum of a further 5 days)
• nMRCGP Wessex RCGP Faculty Courses (usually 4 days)
• Appraisal at end of GPStR year.
Become a Trainer
How to become a GP Trainer

• Speak to Patch Associate Dean and other Trainers
  • Become an Educational supervisor for Foundation or Retained Doctors
• Attend Prospective Trainers Course
• Complete Assessments
• Complete Application Form
• Have a Practice Visit, report sent to GP-STC
• Get Approved and be revisited at regular intervals
• Attend Trainers Groups
• Attend Advanced Trainers Course
Expansion 2009

- Wessex in 2008 appointed to 100 GP Training rotations
- All rotations are now for 3 years starting at ST1 level
- All rotations must contain 18 mths GPR
Expansion 2009

- DH requires Wessex to increase the number of GP Training schemes from August 2009 up to 140 rotations.

- This with the increase in GP post length to 18 mths is pushing our GP Trainer capacity to the limit.
