## Entry criteria

### Essential Criteria

#### Qualifications

Applicants must have:

- MBBS or equivalent medical qualification

<table>
<thead>
<tr>
<th>When Evaluated</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Application form</td>
<td></td>
</tr>
</tbody>
</table>

#### Eligibility

Applicants must:

- Be eligible for full registration with, and hold a current licence to practise from the GMC at intended start date.
- Have evidence of either:
  - *current* employment in a UKFPO-affiliated foundation programme
  - 12 months’ experience after full GMC registration, and evidence of achievement of foundation competences in the three years preceding the intended start date from a UKFPO-affiliated foundation programme or equivalent, in line with GMC standards / Good Medical Practice; including:
    - make the care or your patient your first concern
    - provide a good standard of practice and care
    - take prompt action if you think that patient safety, dignity or comfort is being compromised
    - protect and promote the health of patients and of the public
    - treat patients as individuals and respect their dignity
    - work in partnership with patients
    - work with colleagues in the ways that best serve patients’ interests
    - be honest and open and act with integrity
    - never discriminate unfairly against patients or colleagues
    - never abuse your patients’ trust in you or the public’s trust in the profession.
  - Be eligible to work in the UK.
  - Advanced Life Support Certificate from the Resuscitation Council UK or equivalent (as required to complete Foundation competences) by intended start date.

</tr>
</tbody>
</table>
| **Clinical skills – clinical knowledge & expertise** | ● Ability to apply sound clinical knowledge and judgement to problems  
● Ability to prioritise clinical need  
● Ability to maximise safety and minimise risk  
● Recognition of, and ability to undertake the initial management of, an acutely ill patient. | ● Aptitude for practical skills, eg manual dexterity  
● Successful completion of relevant skills course(s), |
|                    |                    | Application form, interview/selection centre, References |
| **Academic skills** |                   |                |
| **Research and audit skills:** | ● Demonstrates understanding of research, including awareness of ethical issues  
● Demonstrates understanding of the basic principles of audit, clinical risk management, evidence-based practice, patient safety, and clinical quality improvement initiatives  
● Demonstrates knowledge of evidence-informed practice | ● Evidence of relevant academic and research achievements, eg degrees, prizes, awards, distinctions, publications, presentations, other achievements  
● Evidence of involvement in an audit project, a quality improvement project, formal research project or other activity which:  
  ○ focuses on patient safety and clinical improvement  
  ○ demonstrates an interest in and commitment to the specialty beyond the mandatory curriculum |
|                    |                   | Application form interview/selection centre |
| **Teaching:**      | ● Evidence of interest in, and experience of, teaching  
● Evidence of feedback for teaching  
● Instructor status (or a recommendation for instructor status) in an advanced life support course (ALS, ATLS, EPLS, APLS) or equivalent course | |
### Personal skills

#### Communication skills:
- Demonstrates clarity in written/spoken communication, and capacity to adapt language to the situation, as appropriate
- Able to build rapport, listen, persuade & negotiate.

#### Problem solving & decision making:
- Capacity to use logical/lateral thinking to solve problems/make decisions, indicating an analytical/scientific approach.

#### Empathy and sensitivity:
- Capacity to take in others' perspectives and treat others with understanding; sees patients as people
- Demonstrates respect for all.

#### Managing others & team involvement:
- Able to work in multi-professional teams and supervise junior medical staff
- Ability to show leadership, make decisions, organise and motivate other team members; for the benefit of patients through, for example, audit and quality improvement projects
- Capacity to work effectively with others.

#### Organisation and planning:
- Capacity to manage/prioritise time and information effectively
- Capacity to prioritise own workload and organise ward rounds
- Evidence of thoroughness (is well-prepared, shows self-discipline/commitment, is punctual and meets deadlines.)

#### Vigilance and situational awareness:
- Capacity to monitor developing situations and anticipate issues.

#### Coping with pressure and managing uncertainty:
- Capacity to operate under pressure
- Demonstrates initiative and resilience to cope with changing circumstances
- Is able to deliver good clinical care in the face of uncertainty.

### Management and leadership skills:
- Evidence of involvement in management commensurate with experience
- Demonstrates an understanding of NHS management and resources
- Evidence of effective multi-disciplinary team working and leadership, supported by multi-source feedback or other workplace-based assessments
- Evidence of effective leadership in and outside medicine.

### IT skills:
- Demonstrates information technology skills.

### Other:
- Evidence of achievement outside medicine
- Evidence of altruistic behaviour, eg voluntary work
- Evidence of organisational skills – not necessarily in medicine, eg grant or bursary applications, organisation of a university club, sports section, etc.

### Probity – professional integrity
- Demonstrates probity (displays honesty, integrity, aware of ethical dilemmas, respects confidentiality)
- Capacity to take responsibility for own actions.

### Commitment to specialty – learning and personal development
- Shows initiative/drive/enthusiasm (self-starter, motivated, shows curiosity, initiative)
- Demonstrable interest in, and understanding of, the specialty
- Commitment to personal and professional development
- Evidence of attendance at organised teaching and training programme(s)
- Evidence of self-reflective practice.
- Extracurricular activities / achievements relevant to anaesthetics, intensive care, pain management and/or acute care.
- Demonstrates commitment to pursuing specialty training in the UoA applied for and an understanding of the NHS.
- Demonstrates ability to organize one's own learning and time.
- Demonstrates an appreciation of the relationship between service and training in the NHS.
‘When evaluated’ is indicative, but may be carried out at any time throughout the selection process.

The GMC introduced the licence to practise in 2009. Any doctor wishing to practise in the UK after this date must be both registered with and hold a licence to practise from the GMC at time of appointment.

“start date” refers to the date at which the post commences, not (necessarily) the time an offer is accepted. For 2014 CT1 posts this will be between 2 August and 6 August 2014, unless a different start date is specifically indicated in advance by the employing trust/LETB.

‘Selection centre’ refers to a process, not a place. It involves a number of selection activities which may be delivered within the unit of application.

‘Selection centre’ refers to a process, not a place. It involves a number of selection activities which may be delivered within the unit of application.

All experience in posts at any level in this specialty count, irrespective of the country the experience is gained.

Any time periods specified in this person specification refer to full time equivalent.

Examples might include ARCP outcome 4, or failure to progress after two or more failed RITA-Es. Applications will only be considered if there is a letter of support from the postgraduate dean or designated deputy of the deanery in which the applicant worked. Should the postgraduate dean not support the application, appeal may be made to the recruitment lead, whose decision will be final. The recruitment lead may be the recruitment team at the office managing recruitment, or the deanery/LETB to whom the applicant is making their application.

Failure to satisfactorily complete an F2 programme once started should normally be addressed by returning to complete it. Extraordinary circumstances may be defined as a demonstrated change in circumstances which can be shown to impact on the ability to train at that time and may include severe personal illness or family caring responsibility incompatible with continuing to train as a F2 doctor, either through sickness absence, as a LTFT trainee or in a period out of programme.
