CORE MEDICAL TRAINING PROGRAMME

This is a 2-year training programme in Core Medicine for doctors entering at the CT1 level and is designed to support trainees to proceed to training in a Higher Medical Specialty. CMT will provide the core skills needed for ST3 trainees to safely supervise the acute medical take, whatever their specialty. Details of essential competences and qualifications are detailed in the MMC person specification for Core Medical Training at CT1 available from www.mmc.nhs.uk

Wessex Deanery is a single unit of application (UoA) in the RCP/National process. Successful candidates will be asked to rank their choice of location and/or speciality for two years however please note that you may be allocated to any of the participating hospitals taking into account both training needs and post availability.

Health Education Wessex is responsible for the planning, development, education and training of the healthcare and public health workforce across Hampshire, Dorset, Isle of Wight and Salisbury. We also provide medical training for the States of Jersey and GP appraisal services for Jersey and Guernsey. We believe that the key to improving the health and healthcare of the 2.8 million people living in Wessex is investment in the skills and values of the 52,000 people working in the NHS and in primary care.

Within the field of postgraduate medical education and training, we manage across primary and secondary care for these health communities – totalling around 2,400 doctors in training at any one time across 12 Trusts and 160 GP practices. In addition, we support the workforce development for GP Practice Nurses and Public Health practitioners as well managing a bespoke GP appraisal service for established GP Practitioners to meet the requirements for revalidation in accordance with the statutory requirements set by the General Medical Council.

We manage training programmes for postgraduate medical training according to the statutory standards set by the General Medical Council (GMC) and have responsibility for establishing and maintaining quality management systems for all posts and programmes as required by the GMC.

The work of the Deanery is guided by the principles embedded within the NHS constitution.

Exact information will be made available at time of application / interview, but please note that some specialties (e.g. Neurology and Dermatology) are only available in
Southampton and Portsmouth Hospitals. Trainees aspiring to enter a particular Higher Specialty Training programme may wish to gain some experience in that specialty but it is not an obligation of CMT to provide it.

This is a continuous 24-month programme and it is expected that Out-of-Programme experience will be agreed in exceptional circumstances only.

in accordance with their standards for training.

**Study and Training**

All posts within the training programme are recognised for postgraduate training by the General Medical Council (GMC). The primary aim of all posts is to deliver the training programme and minimum standards of education are agreed by all Trusts within the rotation together with the Deanery.

These standards are set by the GMC, RCP and by COPMED - the Postgraduate Deans’ Network, locally they are supervised by the CMT lead consultant (usually the RCP Tutor) who will co-ordinate local teaching programmes which trainees are expected to attend.

Study leave is granted in accordance with Deanery/Trust policy and are within the constraints of the clinical service.

Clinical commitments will include the usual responsibilities of the SHO for example:

1. Supervise, monitor and assist the House Officer (F1) in the day-to-day management of in-patients in posts with an attached F1.
2. Liaise between nurses, F1 and F2 Doctors, patients, relatives and senior medical staff.
3. Attend and participate in ward rounds as timetabled
4. Attend outpatient clinics.
5. Take part in rostered emergency work.
6. Complete discharge summaries.
In addition you will be expected to:

1. Attend induction in each hospital or new department
2. Comply with all local policies including dress code, annual and study leave
3. Co-operate with members of the personnel department when monitoring hours of work and other personnel issues.
4. Attend weekly educational and multidisciplinary sessions
5. Undertake audit at various times throughout the rotations
6. Teach medical students and others as directed.
7. Study for higher examination and maintain continued professional development
8. Follow the most up-to-date CMT Curriculum record your experience in the ePortfolio
