Future Aims/Developments

We are developing a comprehensive programme of Patient Safety training opportunities within and across specialties.

The Academy of Medical Royal Colleges will publish their Patient Safety curriculum in 2011 but the current Wessex programme matches their aspirations and current themes.

If you have any ideas or projects, please contact me to discuss.

Julia Harris
Assistant Director for Wessex Professional Programme

www.julia.harris@suht.swest.nhs.uk OR www.julia.harris@wessexdeanery.nhs.uk
Patient Safety

Patient Safety is a key element in postgraduate medical education.

All doctors in training within the Wessex Deanery must provide evidence of patient safety activity in each year of training and have this signed off at their ARCP.

The programme for CT1/ST1 is the Patient Safety First training day.

Dr Simon Plint
Postgraduate Dean

The Strategic Health Authority has a target to train 20% front line staff in Human Factors.

Patient Safety First Training Day for CT/ST1 Trainees

All CT/ST1 trainees in Wessex must attend The Patient Safety First training day. Dates are shown Below for 2011/12.

Please discuss with your Educational Supervisor and Rota Supervisor to agree which date your will attend.

How to sign up

CT/ST1s—book your place, please visit www.coursesandconferences.org.uk

All events are held at Southern House, Otterbourne and are free.

Other training years - discuss at specialty training days and with your Patient Safety Leads.

Date is subject to change, please also refer to the online course booking system at www.coursesandconferences.org.uk

* GP Trainees in ST1 GP Placements must attend on these days.

GP Trainees in Hospital Specialty Placements should preferably attend on their allocated Specialty days or if this is not possible may attend on one of the above GP Trainee days instead.

Patient Safety in Core or High Specialty Training

Examples of patient safety activity

Paediatrics:
- Child Protection training
- NLS

Anaesthetics:
- Simulation of failed airway drills
- Difficult airway kits
- Safe surgery check lists

Emergency medicine:
- Simulation of anaphylaxis
- Simulation of team working in resus
- Vulnerable adult protection training

Surgery:
- Consent
- Safety surgical check list

Conference

The second Wessex Trainees Patient Safety Conference was held on 1 July 2011. There were 90 presentations across a range of specialties and three keynote speakers. Trainees had the opportunity to present regionally and win prizes—all helpful for the CV.

Feedback from the event was very positive especially from Consultants, the Strategic Health Authority, PCTs, Trusts and The Patient Safety Federation.

The 2012 conference will be on Friday 22 June 2012 at Wessex Deanery, Southern House,
