Conference

The fifth Wessex Trainees Patient Safety Conference was held on 4 July 2014. There were more than 150 presentations across a range of specialties and plus keynote speakers.

Trainees had the opportunity to present regionally and win prizes—all helpful for the CV!

Feedback from the event was very positive especially from Consultants and Trusts.

The 2015 conference will be on Friday 3 July 2015 at Southern House, Otterbourne.

Future Aims/Developments

We are developing a comprehensive programme of Patient Safety training opportunities within and across specialties.

The patient Safety work in Wessex is aligned with the national Human Factors training plan.

If you have any ideas or projects, please contact me to discuss.

Dr Julia Harris
Health Education Wessex  Patient Safety Lead
www.julia.harris@uhs.nhs.uk

Patient Safety in Core or High Specialty Training - Examples of patient safety activity:

Paediatrics:
- Child Protection training
- NLS

Anaesthetics:
- Simulation of failed airway drills
- Difficult airway kits
- Safe surgery check lists

Emergency medicine:
- Simulation of anaphylaxis
- Simulation of team working in resus
- Vulnerable adult protection training

Surgery:
- Consent
- Safety surgical check list

Medicine:
- This programme meets the requirements for the Royal College of Physicians “Learning to Make a Difference”

Patient Safety Training Development at Health Education Wessex

Every one of us in the NHS should make a difference to patient safety.

All doctors in training within Wessex must provide evidence of patient safety activity in each year of training and have this signed off at their ARCP.

The programme for CT1/ST1 is called the “Patient Safety First” training day.
